

- Cont. 2
a1*
7. (Original) The system of Claim 3, the container further comprising:
a top end and a bottom end, the top end having a plurality of holes;
a front side and a back side;
a left side and a right side;
a lighting element; and
a fastener extending through the holes to secure the lighting element to the container
and closing the top end of the container.
8. (Original) The system of Claim 3 further comprising a lighting element and a means for
fastening the lighting element to the container.
9. (Original) A method of illuminating an area with a plurality of candles, the method
comprising:
placing a first plurality of candles having a first expected burn time in the area;
placing a second plurality of candles having a second expected burn time in the area;
and placing a third plurality of candles having a third expected burn time in the
area; and
lighting the candles at substantially the same time.
10. (Original) The method of Claim 9, wherein each of the first, second and third plurality
of candles are floating candles.
11. (Original) The method of Claim 9, wherein each of the first, second and third candles
are scented.
12. (Original) The method of Claim 9, wherein at least one first, second, and third candles
comprises of at least 12 first candles, at least 6 second candles, and at least 3 candles.
13. (Original) The method of Claim 9, wherein the first burn time is less than about 60
minutes, the second burn time is greater than about 60 minutes and less than about 120 minutes,
and the third burn time is greater than about 120 minutes.
